VOLUME 14, ISSUE 6.

June 2019

**J**une 2019. June is known as the month of the Rose and the Dove. In old English it was simply known as mid-summer month. In the seventeenth century the Latin word for June "Iunius" entered the English language meaning sacred to Juno.

The Wessex Research Group Network web site (designed in 2007) it is currently being re-constructed.

## ***The Atlantis Line***

**By Roy Snelling**

In my book *THE PLANETARY MATRIX* I explain how the energy driving the Planet is in the form of the five elements, ether, air, fire, water and earth, that are located within the etheric body of the Planet in the form of Platonic Solids. As all Platonic Solids, being constructed on the principle of the Golden Ratio, fit exactly into each other, and with the shape of a sphere, these psychic crystals fit into the globe of the Planet. The apexes of all these crystals lie on the surface of the Earth. The straight edges between such dive under the curved surface of the Earth and up again. The energy from such is then projected upwards to the curved surface of the Earth where it appears as straight lines on the surface of the Earth. These then are the primary telluric lines of Gaia.

In England there are two primary lines passing through the Country. A tetrahedron fire line enters from the Atlantic Ocean from the north-west, passes through Cornwall at Rock, thence through the hill fort known as Largin Castle, near where it crosses the Atlantis Line, and then out via Rames Head, opposite Plymouth Sound. An icosahedron Water Line passes into England through the North Suffolk coast, skirts South-East London, and then exits through the Isle of Wight on it's way to North-West France and thence to the Atlantic Ocean

The Azores are a group of islands that straddle the Mid-Atlantic Ridge and are therefore liable to earthquakes and volcanic eruptions. They are thought to be the remains of a mountain chain that lay to the north of one of the large islands of Atlan (Atlantis). Between two of the eastern-most islands, Sao Miguel and Terceira, there is a long sea-mount. In the Spring of 2013 a Portuguese yacht owner went diving onto

the sea-mount. In the centre of such, almost half-way between Sao Miguel and Terceira, He found a perfectly formed stone built, pyramid, of a similar shape to the Great Pyramid of Giza. This news stirred up a controversy at the time with some accusing Silva of deliberately creating conspiracy theories. What is strange is that an edge-line of the hexahedron earth line passes right through this spot. Also, if one were to use a computer program to project what used to be called the Michael-Mary Line into the Atlantic, as far as the Azores, it meets the earth line exactly at the site of this pyramid on the sea mount.

Where the Atlantis Line crosses the Atlantic Ocean and enters into England, It then passes through a number of significant Earth Chakras before leaving the Norfolk Coast. These include St. Michael's Mount, Yes Tor (Dartmoor), Glastonbury Tor, and Avebury Stone Circle.

And now we come to a point of possible contention. The energy band of the Atlantis Line picks up numerous churches along it's length, that is, along the one and a quarter mile wide band that I have identified. I identified 159 churches in all. In the book *THE SUN AND THE SERPENT* it was stated that there were many churches dedicated to St Mary. The authors called the Atlantis Line the "MICHAEL-MARY LINE". In my research within the band width that I adopted I identified 52 Michael – Mary – George churches; 33% of the total. However, this percentage could be higher.

## The Atlantis Line (continued)

In the Reformation a number of Marian churches had their dedications changed to something less individual saint-specific: All Saints, Christ, Holy Cross, Holy Trinity, All Angels. If these are then added to the Michael-Mary churches we get a total of 83, or 52%. This is then indeed a high concentration of such churches.

If such concentration of Michael-Mary churches occurs only along the Atlantis Line and not generally across the whole Country one could be justified in calling the Line "Michael-Mary". So I decided to test this. I chose five different parts of the Southern part of the Country, but none near the Atlantis Line. Using O.S. Landranger Maps I then delineated on each an area of 80 square miles. I noted what all the dedications were, and the number and percentage of Michael and Mary churches plus post-Reformation dedication changes. The results for the tests for the five areas show that the ratios of the M-M etc churches to the totals is very similar to that of the Atlantis Line. In conclusion, the Atlantis Line has **no** specific relevance to church dedications and should never have been given the name "Michael-Mary". This now brings into question the supposed male and female energy currents that are supposed to entwine themselves, serpent-like, around and through the central line. In the *SUN AND THE SERPENT* Miller and Broadhurst, having committed themselves to

their Michael and Mary churches, now needed to ensure that their male and female serpents used such as nodes where they would cross over each other. I decided to do my own remote dowsing on O.S maps of the Atlantis Line. I asked the question ..... "Are there male and female energy currents that interweave through Earth Chakras on a hypothetical centre line?" ..... The answer was a definite YES! I also found that the centre line itself is an energy line in its own right. It is a line of the "Will-to-Life", and it controls the male and female lines that interweave over it. The three currents are like the Susumna, Ida and Pingala of the human psychic energy system of ayurvedic medicine. But it is definitely not the position of Michael or Mary churches that determine where the nodes are thought to be which the male-female serpents will cross. Their space-relationships are determined by some Divine mathematical formula. I intend to do more work on this, and hopefully, in due course, will update this article at a later date. Roy's book *The Planetary Matrix* is available from all E-book Libraries, including Amazon Kindle, Kobo, Barnes and Noble, Google, Overdrive and others
