Dear WRGN Supporters,

Recent developments include the creation of links with groups in the Netherlands and the Czech Republic and the inclusion of the Bath Royal Literary and Scientific Institution to the WRGNetwork.

The WRGNetwork web site now contains an archive for written articles and research papers. Four articles (Remote Viewing by David Kingston of Dorset, Sound Healing by Dean Carter of Sherborne, Earth Energies and the I Ching of Chess by Mano Warren of Glastonbury and Cosmic Energy and Aura by Miroslav Provod of the Czech Republic) are listed. Designed to provide a platform for researchers, the archive will also serve as a written evidence base for persons exploring new areas of consciousness. Shorter articles that promote or introduce the work of

individuals or groups are always very welcome for inclusion in this newsletter.

During October the audio archive will go 'live and on-line' with lectures being broadcast using the facility provided by the MindSpiritNetwork (see programme of on-line events for further details). Bristol Dowzers also begin their autumn programme of events from a new venue; 14 Tyndalls Park Road, Bristol.

This newsletter contains a list of the forthcoming events for the month ahead, and contributions from Helena Lavatsky and Rudolf Steiner. Newly digitised lecture titles (available on-line) are; the Mythology of the British Isles: Celts, Goddesses and Heroes by Geoffrey Ashe and the Energies of Natural Medicine by Michael Endacott.

QUOTATIONS

"The Universe is worked and guided from within outwards. As above, so it is below; as in heaven, so on earth; and [humanity] - the microcosm and miniature copy of the macrocosm - is the living witness to the Universal Law and to the mode of its action. We see that every external motion, act, gesture, whether voluntary or mechanical, organic or mental, is produced and preceded by internal feeling or emotion, will or volition, and thought or mind. As no outward motion or change, when normal, in [the] external body can take place unless provoked by an inward impulse.... so with the manifested Universe. The whole Cosmos is guided, controlled and animated by [an] almost endless series of Hierarchies of sentient Beings, each having a mission to perform... as agents of Karmic and Cosmic Laws."
HELENA BLAVATSKY

"We study what happens in history as the reflection of an event enacted behind the scenes of history in the supersensible world... where impulses of supersensible beings play in upon the Earth and come to expression in the acts of humanity."
RUDOLF STEINER.
