VOLUME 10, ISSUE 11.

November 2015

**N**ovember sees the launch of a series of eleven template ceremonies. The ceremonies aim to assist in the re-connection of electromagnetic circuits in the human template or original blueprint using our natural resonance with the 5 Elements and Sacred Geometry. For further information contact Claudie at [info@stargaia.com](mailto:info@stargaia.com)

## ***'I AM' - The Creator***

***By Patricia Harper***

In this current age our (left-brain) thinking is our problem and our challenge, because we are also creators; an idea the universe wants us to explore.

The mechanical world of the 19<sup>th</sup> century was a duality of science and spirituality, creating the idea of the separateness of human beings (and the idea of the worthlessness of the earth's other creatures), as separate little cogs working hard to keep our 'worth' in a vast machine.

Quantum physics has now been caught in science's own formulae, because it proves that consciousness is a vital factor in the 'collapse' of the potential bubbling in and out of the zero vacuum field into particles of matter, creating an 'object' or 'event' in 3 dimensional space-time.

It is the observer, the scientist's own consciousness that decides (sub? super? consciously but not with awareness) the outcome of his / her experiment, that we are living in a Uni-Verse - a one vibrational ocean of unending possibilities and 'entanglement' (this is science talking, not only mysticism now). Oneness and interconnectedness are dependent parts of quantum physics lore, where all possible outcomes are in a branching tree form (binary alternative choices, 0/1) of parallel real-ties.

In this 21<sup>st</sup> century of the information age, we understand how information is used to form our everyday world experience through theories of quantum physics, via computers and 'the chip' manifesting as the supermarket bar-code, hospital appointment, traffic control and defence systems as well as the world wide web etc etc.

However, the 'penny has not dropped' – that WE are information fields and information processors, which are creating our everyday experiences. Our consciousness every day, every minute is receiving information via the many fields which make up our bodies, and our

endocrine system, in particular via our solar plexus / gut, heart and brain organs, and sending out information via the same fields, which are affecting the Zero Point Field, of which every atom of our body is a part, every energy wave and every potential - open to the 'Observer' – that is the mind of the host body. We are affecting all others and the outcome of this planet's destiny.

When we accept 'negative' information and allow it to enter our consciousness it is causing the potential position of the particle to 'drop' into matter; similarly when we send out a 'I pity myself', 'it is never going to work', 'it is going to turn out bad for???'', 'the earth is going to die' attitude, we are causing the Creation of our experience to materialise. We have been told many, many times, by all types of Gurus and Masters, that we are our part of the creator, that we are a microcosm of the macrocosmic source of all creation, yet we behave as if we are deaf and blind – as well as stupid!

Before every morning begins for you (and repeat the medicine as often as you can remember during your day), CREATE THE DAY you want to materialise by feeling gratitude, joy and peace, and create the experiences that are going to be full of joy and peace; gradually you will heal the physical world that you have yourself created for your physical self. We must also consider that the earth is also part of this field and it is waiting for her human children to awaken.

This is why you are here to make REAL - realise your self power in this physical world of duality / contrast and to experience it in a practical way (we have learned the theory in higher levels before we came to this material level) how we create our own destinies.

*I AM – the Creator continues on Page 4.*

## 'I AM' - The Creator (continued)

Karma – the Law of Cause and Effect is super-ceded by the Law of Grace i.e. the direct intervention of the awareness of your super-energy level (soul as part of the one spirit / life power) into your earthly linear perception of how 'Karma' works.

Can you hear your soul laughing, understand the laughter of Buddha? - YOU have created the life you are always complaining about! No one and no-thing else. You are your own devil and you are your own god.

Quantum physics has re-found its original alchemical spiritual partner of the priesthood, of the ancient temples. We build our own temple in our consciousness before it can materialise on Earth. We create with our thoughts (images and words) + feelings (energy of projection / emotion): (basis of ancient magism / wisdom / science).

What are YOU feeling / creating right now? Doubt, fear, resentment – that now you have know that you have self responsibility for your life? Is it easier to blame an external authoritarian 'god' – of course it is – which is why we have taken the simpleton's way out of acknowledging the truth many lifetimes ago and are still 'stuck' in linear, dualistic karma.

It will take much practice to overcome this lifetime's negative programming, let alone that of your soul's history, but if you start with 'Now' – it becomes easier and easier with every 'Now' being positively programmed with awareness. 'The kingdom of God is within you', - sounds familiar? The kingdom of Hell is within you too. Which will you choose tomorrow morning, the next minute?

## Book Review: The Golden Thread: A Quiet Revolution in Holistic Cancer Care

By Pat Pilkington

This book shares the unique insights of Pat's 30 years of working for those with cancer. The "Bristol Approach", as it is now known and internationally respected, offered a more holistic support system for the treatment of cancer.

The book is far more than a history of this extraordinary centre or the autobiography of a remarkable woman. It is a deeply spiritual work that aims to show how we can all find our life's meaning and purpose, and come to a true and lasting sense of peace and fulfilment. Pat speaks to life, not just to cancer, and shows how the restoration of the human spirit is an essential part of holistic healing. The Golden Thread of the title is the transcendent nature of love that runs through everything, awakening the potential to uplift, inspire, overcome and create anew, even in the face of severe adversity. ## The Ecstasy of Chaos

*When the immense drugged universe explodes,  
In a cascade of unendurable colour,  
And leaves us gasping naked,  
This is no more than Ecstasy of Chaos,  
Hold fast with both hands to that royal love which alone,  
as we know certainly,  
restores fragmentation into true being .....Robert Graves*
